

Building a Leading Gold Mining Company in Latin America

Aris Mining is a Latin America-focused gold mining company, currently operating two underground mines in Colombia. We also have two development projects in Colombia and Guyana. Our strategy blends current production and cashflow generation with transformational growth driven by expansions of our operating assets, exploration and development projects. Aris Mining intends to unlock value through scale and diversification.

Aris Mining is targeting an annual production rate of more than 500,000 ounces of gold, following the commissioning of the second mill at Segovia, completed in June and ramping up during H2 2025, and the construction of the Bulk Mining Zone at the Marmato Complex, expected to start ramping up production in H2 2026.

2. Trailing 12-months as of June 30, 2025

3. Adjusted EBITDA is a non-GAAP measure, refer to the MD&A for the periods ended June 30, 2025 and 2024 for a reconciliation of Adjusted EBITDA

4. Market capitalization as of October 6, 2025

5. Marmato Bulk Mining Zone (formerly referred to as Lower Mine) and Narrow Vein Mining Zone (formerly referred to as Upper Mine) estimated life of mine average gold production. See the pre-feasibility study (PFS) on the Marmato Expansion Project with an effective date of June 30, 2022

6. Soto Norte shown on a 100% basis. Aris Mining owns 51% of Soto Norte

7. Preliminary as of September 30, 2025, subject to final reconciliation.

Key Investment Considerations

Experienced Leadership

Track record of value creation

Extensive Gold Resources

18.3 Moz Measured & Indicated¹ at 2 mines and 2 projects

Organic Growth

Doubling production from in-progress expansions to over 500 koz/year

Financial Strength

Substantial cash balance and strong cash flow to fund growth

Strong Liquidity and Market Presence

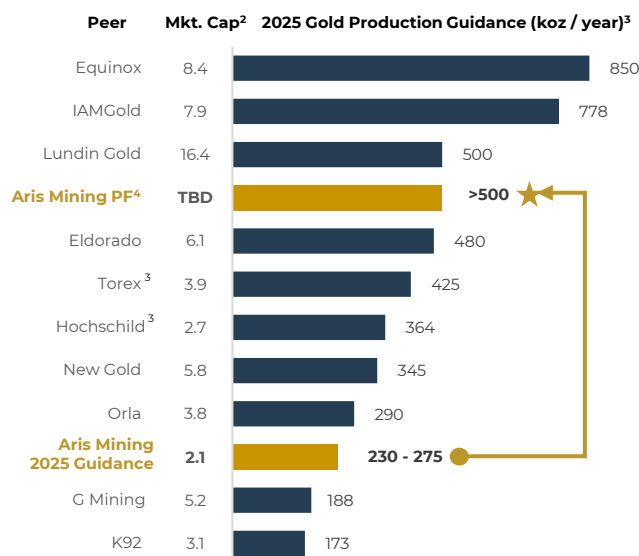

ADTV of \$30.3 million for the three months of July – Sept 2025

Partnership With Contract Mining Partners

A responsible and mutually beneficial business model

Climbing the ranks based on gold production
